## **Temporary RPM**

Temporary Raised Pavement Marker

---

### **Product Description**

Temporary raised pavement markers, also known as stick ‘n’ stomps or TRPMs, are a short-term and economical solution to mark asphalt and pavements before permanent line marking takes place. They provide a way to delineate lanes and edges before the permanent longitudinal line marking process takes place.

Temporary RPM:

- Provides bi-directional reflectivity.
- An easy to remove clear cover protects the reflective film during application.

Temporary RPM are available in:

- Bi-directional (2-Way)
- White, Red, Yellow, Blue. Other colours on request

### **Specification**

Dimension (mm):	100mm (L) x 25mm (W) x 55mm (H)
Packing:	500 pcs per box
Colour:	White, Red, Yellow, Blue. Other colour by requested
Reflective Strip:	Class 1A, Diamond Grade Prismatic with plastic cover.
Material:	Non-Hazardous materials
Adhesive:	Recommended to use with Martin bitumen adhesive

### **Application**

- Peel paper from bottom of TRPM
- Place TRPM on the surface and apply pressure.

### **Storage & Safety Data**

Store under cover in cool & dry condition. Safety Data Sheet (MSDS) available on request.
